

## Voyage Healthcare Obstetrics & Gynecology

### 36-WEEK REMINDERS

- **HOSPITAL PRE-REGISTRATION**

If you have not already done so, please complete online or send in the pre-registration forms for the hospital at which you are planning to delivery.

- **MAPLE GROVE HOSPITAL**

- <https://northmemorial.com/maple-grove-hospital-delivery-pre-register/>

- **NORTH MEMORIAL MEDICAL CENTER**

- <https://northmemorial.com/location/family-birth-center-north-memorial-health-hospital/>

- **GROUP B-STREPTOCOCCUS (GBS) STATUS**

- Your provider performs this vaginal/rectal culture between 36-37 weeks gestation
  - It is important to know your GBS status (positive or negative) when you are admitted to the hospital. If you are GBS positive, you will be given antibiotics in labor or after your bag of water breaks.

- **FMLA/SHORT-TERM DISABILITY FORMS**

- If you have not already done so, discuss with your employer any forms that will need to be completed prior to your parental leave. Please complete the forms to the best of your abilities and bring them to your next clinic visit. Once received in clinic, you can expect your forms to be completed within 7-10 business days

- **LABOR PRECAUTIONS/INSTRUCTIONS**

- Please call Voyage Healthcare if you think you are in labor: regular, painful contractions  $\leq 5$  minutes apart for at least 2 hours and getting stronger and closer together over time. Please call if your bag of water has broken, your baby is not moving normally or if you have vaginal bleeding. Call **763-587-7916** to speak to an OBGYN nurse or to leave a message for the on-call physician through the answering service. You do not need to call the hospital directly.

- **PUBIC HAIR**

- Please refrain from shaving/waxing pubic hair after 36 weeks of pregnancy. The removal of pubic hair can increase the risk of infection at time of delivery.

- **BABY'S PHYSICIAN**

- If you haven't already decided on a provider for your newborn, now is a good time to consider your options. Voyage Healthcare Family Medicine providers take care of newborns, children and adults at all our office locations. For more information on our Family Medicine Providers visit our website: [www.voyagehealthcare.com](http://www.voyagehealthcare.com)

- **CIRCUMCISION**

- If you are having a boy and plan to circumcise, please check with your insurance company regarding coverage prior to going to the hospital. Some insurance companies will not cover circumcisions in the hospital. The cost of circumcisions is roughly double in the hospital compared to the cost in clinic after discharge. Our Voyage Healthcare Family Medicine physicians may perform circumcisions in the clinic office setting.

- **LACTATION COUNSELING AVAILABLE**

- Cristen Singer APRN, CNP is a certified lactation counselor. Cristen sees patients primarily at Center for Women’s Health at our Plymouth office. She is available to see patients with issues or concerns regarding breastfeeding any time before or after delivery.

- **POSTPARTUM FOLLOW-UP**

- Please be sure to call Voyage Healthcare shortly after you go home from the hospital to schedule your postpartum check at 4-6 weeks postpartum, unless otherwise instructed by your doctor.

**OB/GYN Appointment / Nurse Line: [\(763\) 587-7916](tel:7635877916)**
